Company Description:

Cortechs.ai is the leader in radiology AI applications, using cutting-edge advances in medical imaging to revolutionize disease screening and early detection so people can enjoy longer, better lives. The company develops and markets breakthrough medical device software solutions that quantify and track neurodegenerative and cancers. Cortechs’ cutting-edge brain imaging analysis provides neurologists, radiologists, oncologists, and clinical researchers worldwide with a convenient and cost-effective means to quantify brain structures to help assess a variety of neurological conditions, such as Alzheimer’s disease, epilepsy, multiple sclerosis, brain trauma, cancer and brain development abnormalities. Additionally, they have developed a tool to aid in the accurate identification of prostate cancer. The company has FDA-cleared products for use in the diagnosis of neurodegenerative and traumatic brain conditions as well as prostate cancer. Please visit www.cortechs.ai for further information.
