

Spend five weeks in Barcelona and study Cognitive Science by attending the “Social Cognition and Drugs in Spain” Global Seminar in Summer 2026! Barcelona is an artistic city, with unique architecture and has a vibrant culture. Thus, Barcelona is the perfect setting to examine, discuss, and experience issues of social cognition and the effects of cultural norms on how individuals interact.

Interested? Join the Zoom information session on Wednesday, October 29, 4:00-5:00pm (zoom), to meet the program leader Jaime Pineda, learn about the courses and excursions.

[Register here](#) for the Zoom link **and recording to the general information.**

- **Please watch the general information session** (YouTube link in the email sent to you after registering for the program information session) **BEFORE attending the program specific one** as we all go over the application, financial aid, scholarship and fees in that session.

If you can't attend, still register for access to the recording. You can also get more details on this [program's website](#).

Included courses (*Consult your academic advisor for course credit details*):

- COGS 171GS: Mirror Neurons and Social Cognition
- COGS 174GS: Drugs: Brain, Mind, and Culture

Feel free to ask questions on the Virtual Advising Center or [visit drop-in](#) hours. Read student experiences on our [Global Seminar Blog](#) and follow us on Instagram @studyabroaducsd. Hope to see you soon!
