

# SCREEN AND TEST FOR COVID-19

## Daily Screening

All students living in university-owned housing are expected to participate in daily symptom and exposure screening, via the Student Symptom and Exposure Screening tool.

## Testing ALL Tritons

All undergraduate and graduate students coming to campus for educational, research, co-curricular, recreational or social activities (including all students living in university-owned housing) are required to participate in free, periodic asymptomatic testing for SARS-CoV-2, the virus that causes COVID-19.

## Masks Are Required

Face masks can significantly reduce the spread of COVID-19. Wear a mask while on campus — outdoors and in shared community indoor spaces — and keep the Triton community safe!
